Cultivation + **Extractions** + **Testing Labs**

The science is green, and so is your magazine:
Printed six times per year with soy-based ink on recycled paper.

Introduction / About

As cannabis products become legal a dynamic marketplace is fueling the rapid industry growth from state to state. Cannabis science in the form of extraction, testing labs, and cultivation are the glue of legalization.

Terpenes and Testing magazine reflects the evolution of method, mind, and matter intrinsic to these industries. Each of these individual segments of the conglomerate of legal cannabis now have a voice through this dynamic publication.

The momentous popularity behind extractions are fueling continued research into effective modes of dissecting the chemical compounds of the plant. Keeping extractions safe and legal requires a steady start product (cultivation) and tested, clean end product (testing). These three segments are constantly interwoven in every state and country that is exploring the wide world of legal cannabis sales.

Cultivation, extraction, and testing lab industries are maturing before our eyes and as they revolve around one another Terpenes and Testing is focused on keeping the consumer, chemist, and business professional equally informed on the current pulse of cannabis science.

Readers can check in regularly to the online blog for relevant news and colloquial explanations of methods, equipment, and technologies fueling these industries. Otherwise they can subscribe for our bi-monthly edition that takes a deep dive into cannabis cultivation, extraction and lab testing from the inside out.

Terpenes and Testing is the cannabis industry's relevant news source specifically for the scientific mind.

Terpenes and Testing Magazine delivers analysis and insight into the technical sciences of the cannabis industry. This publication explores the entire spectrum of the beautiful cannabis flower that has created a burgeoning new industry worldwide.

Opening a line of communication between these two distinct growing industries, we combine primary source reporting with curated content that provides insight into the segments of cannabis that are fueling a compliant legal recreational market.

Contributors range from experts in these fields to valued journalist in the industry to provide an objective curation of specialized knowledge on the topics of cultivation, testing, and extraction.

Subscribers will be enthralled with the international news stories, feature articles, and slice of culture splattered across the pages of each issue. These topics chronicle the key trends, significant issues, and primary methods that most influence executives and managers in these fields.

Published bi-monthly, Terpenes and Testing Magazine is written by and for industry professionals whose livelihoods depend upon the success and growth of our industry.

A new and needed nucleus, Terpenes and Testing Magazine covers a carefully constructed gateway of information for these hyper specialized and complementary industries.

Welcome to your world – let expand it together.

Safe [Live] Area: 7.875" x 4.875"

All text **MUST** be converted to outlines/flattened/rasterized prior to submission.

All sales-related questions should be submitted to info@extractionmagazine.com or call 805-530-2424

All technical questions should be submitted to: info@extractionmagazine.com

Margin Trime Size: 8.375" x 10.875"

Note: Text placed outside the Safe [Live] Area of any Bleed ad may be cut off. Please keep text inside the Safe Area.

To ensure that your ad looks it's absolute best, all ads submitted for use in one of our print publications (e.g., Terpenes and Testing Magazine, Terpenes and Testing Conference & Expo Show Guide, Terpenes and Testing Conference & Expo Show Daily, etc.) **MUST** be submitted in PDF format that conforms with PDF/X-1a: 2001 specifications.

PDF/X-1a is a widely accepted standard for files that are used in books, magazines, & other high-resolution print media. Commonly used professional design tools (e.g., Adobe InDesign, Adobe Illustrator, Adobe Photoshop, Quark Express, etc.) include a PDF Export Preset that supports PDF/X-1a; please ask your graphic designer to use this format when saving your final ad files.

We will pre-flight all ads using Adobe Acrobat Professional to ensure that they meet PDF/X-1a standards and **you will be asked to resubmit your ad if it is not the correct format**. If you ask us to run an ad that is not PDF/X-1a complaint, we will not be responsible for the quality of the printed ad.

All ads should be submitted in CMYK format, 300dpi or higher.
