Align your brand with a media partner who understands the business of doing business.

The news digest for the cannabis science world covering cultivation, testing labs, and extraction.

Cultivation + Extractions + Testing Labs

The science is green, and so is your magazine: Printed six times per year with soy-based ink on recycled paper.
As cannabis products become legal, a dynamic marketplace is fueling the rapid industry growth from state to state. Cannabis science in the form of extraction, testing labs, and cultivation are the glue of legalization.

Terpenes and Testing magazine reflects the evolution of method, mind, and matter intrinsic to these industries. Each of these individual segments of the conglomerate of legal cannabis now have a voice through this dynamic publication.

The momentous popularity behind extractions are fueling continued research into effective modes of dissecting the chemical compounds of the plant. Keeping extractions safe and legal requires a steady start product (cultivation) and tested, clean end product (testing). These three segments are constantly interwoven in every state and country that is exploring the wide world of legal cannabis sales.

Cultivation, extraction, and testing lab industries are maturing before our eyes and as they revolve around one another Terpenes and Testing is focused on keeping the consumer, chemist, and business professional equally informed on the current pulse of cannabis science.

Readers can check in regularly to the online blog for relevant news and colloquial explanations of methods, equipment, and technologies fueling these industries. Otherwise they can subscribe for our bi-monthly edition that takes a deep dive into cannabis cultivation, extraction and lab testing from the inside out.
Terpenes and Testing Magazine delivers analysis and insight into the technical sciences of the cannabis industry. This publication explores the entire spectrum of the beautiful cannabis flower that has created a burgeoning new industry worldwide.

Opening a line of communication between these two distinct growing industries, we combine primary source reporting with curated content that provides insight into the segments of cannabis that are fueling a compliant legal recreational market.

Contributors range from experts in these fields to valued journalist in the industry to provide an objective curation of specialized knowledge on the topics of cultivation, testing, and extraction.

Subscribers will be enthralled with the international news stories, feature articles, and slice of culture splattered across the pages of each issue. These topics chronicle the key trends, significant issues, and primary methods that most influence executives and managers in these fields.

Published bi-monthly, Terpenes and Testing Magazine is written by and for industry professionals whose livelihoods depend upon the success and growth of our industry.

A new and needed nucleus, Terpenes and Testing Magazine covers a carefully constructed gateway of information for these hyper specialized and complementary industries.

Welcome to your world – let expand it together.
The science of information is our business.

The rapid evolution in both the modes of testing Cannabis products and methods of extracting Cannabis concentrates means everyone in these industries has one thing in common, above all: they are too busy to chase needed information.

Terpenes and Testing Magazine offers the crucial information component needed in one publication to help Cannabis professionals grow and thrive.
Terpenes and Testing Magazine is a MACE integrated media company that collects critical data relevant to the cannabis science community. Our hopes are to convert big data into digestible stories that help professionals understand, grow, and manage their business.

To show our loyalty to our long term Partners, we are offering a print feature when a six month insertion commitment is signed. This feature will be run sometime during that insertion term and will also be featured online.

For those Partners that commit to a 3 month insertion, we will do an online feature article on our very popular blog which will be rich with backlinks to your site to promote SEO for your product/service.
ALL Advertisers will receive FREE social media cross promotion with the following ad sizes:

1/4 ad
ONE cross promo per month for the two months of the issue.

1/3 ad
ONE cross promo per month for the two months of the issue.

1/2 ad
TWO cross promos per month for the two months of the issue.

Full Page ad
THREE cross promos per month for the two months of the issue.

Double Page Spread
FOUR cross promos per month for the two months of the issue.

These will run on Instagram, Facebook and Twitter, with exposure to over 10,000 followers.

The advertiser will be responsible to give us their content and/or ad. All ads must be non-pixelated 800x800 in size and sent to us 3 days prior to the desired run date.

You can also purchase Social Media Cross Promotion as a standalone or part of a digital-only package for $7 per thousand followers reached.
To ensure that your ad looks its absolute best, all ads submitted for use in one of our print publications (e.g., Terpenes and Testing Magazine, Terpenes and Testing Conference & Expo Show Guide, Terpenes and Testing Conference & Expo Show Daily, etc.) MUST be submitted in PDF format that conforms with PDF/X-1a: 2001 specifications.

PDF/X-1a is a widely accepted standard for files that are used in books, magazines, & other high-resolution print media. Commonly used professional design tools (e.g., Adobe InDesign, Adobe Illustrator, Adobe Photoshop, Quark Express, etc.) include a PDF Export Preset that supports PDF/X-1a; please ask your graphic designer to use this format when saving your final ad files.

We will pre-flight all ads using Adobe Acrobat Professional to ensure that they meet PDF/X-1a standards and you will be asked to resubmit your ad if it is not the correct format. If you ask us to run an ad that is not PDF/X-1a complaint, we will not be responsible for the quality of the printed ad.
